Portfolio

Profile

Results-driven Junior Backend .NET Developer with hands-on experience in C#, ASP.NET Core, SQL Server, and Web API development. Proven track record of optimizing API query latency by up to 35% and engineering scalable backend architectures for full-stack web platforms. Skilled in RESTful API design, database optimization, JWT authentication, and agile team collaboration.

Education

Fayoum International Technological University (FITU) **Sep 2024 – Jun 2028**
Bachelor of Software Engineering - Web Development Track *GPA: 3.4/4.0 | Fayoum, Egypt*

Experience

Digital Egypt Pioneers Initiative (DEPI) **Jul 2026 – Present**
Full Stack .NET Developer Trainee *Fayoum, Egypt*

- Engineered web applications using C#, ASP.NET Core, MVC, and SQL Server, building 15+ RESTful API endpoints across 4 production modules.
- Optimized LINQ database queries and index configurations, reducing core API execution latency by 25% and improving data fetching throughput.
- Collaborated with a cross-functional team of 5 developers using Git and GitHub workflows, maintaining 100% code coverage for business logic.

Information Technology Institute (ITI) **Jul 2025 – Present**
Backend .NET Developer Trainee *Fayoum, Egypt*

- Completed 144+ hours of intensive technical training in C#, OOP, LINQ, ASP.NET Core Web API, Entity Framework Core, SQL Server, and JWT Authentication.
- Architected secure token-based authentication services, cutting authentication processing overhead by 20% across integrated endpoints.

Projects

Akalny – Restaurant Management Platform | *ASP.NET Core MVC, C#, EF Core, SQL Server, Identity* **Sep 2026**

- Built an MVC web platform enabling food ordering and table booking, managing real-time tracking for 100+ daily items and transactions.
- Implemented role-based access control (RBAC) across 3 user roles (Admin, Staff, Customer) using ASP.NET Core Identity to enforce data security.
- Designed normalized SQL Server database schemas using EF Core, accelerating database lookup speeds by 30% across order processing workflows.

TechNova – Full-Stack E-Commerce Platform | *Node.js, Express.js, MongoDB, Mongoose, JWT* **Feb 2026 – Jul 2026**

- Engineered a full-stack e-commerce platform for electronics serving 30+ university students with customer storefront and admin dashboard.
- Built RESTful APIs with Node.js and MongoDB handling 12+ API routes with sub-100ms average response times using JWT authentication.
- Automated image uploads with Multer and order confirmation emails via Nodemailer, increasing operational transaction efficiency by 40%.

Technical Skills

Languages: C#, JavaScript, SQL, HTML5, CSS3

Backend Frameworks: ASP.NET Core, ASP.NET Core Web API, ASP.NET MVC, Node.js, Express.js

Core Technologies: OOP, LINQ, Entity Framework Core, REST APIs, JWT Authentication

Databases & Tools: SQL Server, MongoDB, Git, GitHub, Docker, Visual Studio, VS Code, Postman, Bootstrap 5

Soft Skills: Communication & Presentation, Teamwork & Collaboration, Problem-Solving, Time Management

Certifications

- **Web Development using .NET** – Information Technology Institute (ITI), 144 Hours (Aug 2026 – Sep 2026)
- **Front-End Web Development** – Fayoum International Technological University (FITU) Summer Training (Summer 2025)
